Gina Iuliucci is a Certified Alzheimer's Disease and Dementia Care Trainer with 25+ years of experience working in senior communities with people living with dementia.

Please join her for a one-day intensive workshop to learn about dementia and the disease process; how to care for, engage and effectively communicate with someone living with dementia; and the significance behind education and awareness about Alzheimer's and other types of dementia.

This is the required seminar for those who qualify and are pursuing certification as a Certified Dementia Practitioner (CDP). You may also attend the seminar simply for the education. A digital student notebook is provided.
